Centralized destruction of airborne germs & chemicals

Creating & Maintaining Healthier Living Environment

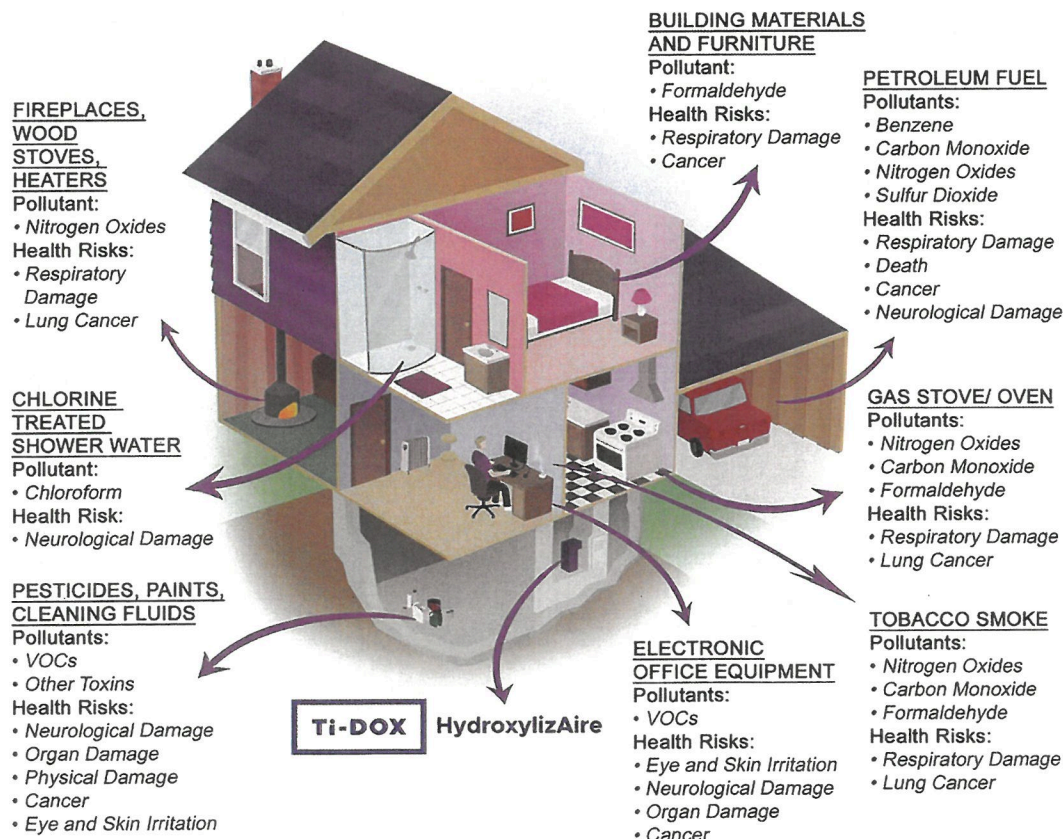

## AIR DECONTAMINATION DEVICE for Centralized Forced Air Ventilation Systems

Industry generated chemical emissions, germ-laden air circulation systems, synthetic material off-gassing and decomposition of natural resources, are all potential instigators of serious health, safety and environmental issues.

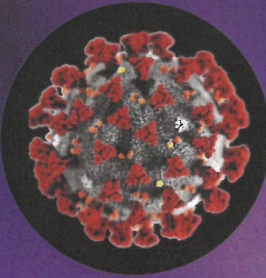

To combat this problem, Ti-DOX EnviroTek Ltd. (Calgary, Alberta, Canada) developed an unrivaled pollution 'decontamination' device for residential and commercial facilities - the Ti-DOX *HydroxylizAire*™.

The incorporated patented technology duplicates the natural destructive power of Hydroxyl Radical, also commonly referred to as the "detergent of the atmosphere". Micro-organisms can only be inactivated by UVC light under specific limited conditions. However, the Ti-DOX *HydroxylizAire*™ is not only capable of obliterating viruses, bacteria and other parasites, but also destroying toxic chemicals and eliminating noxious odours.

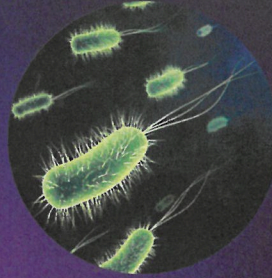

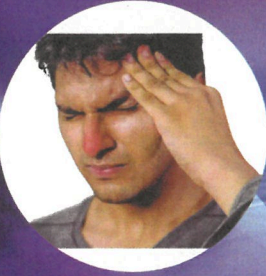

# 24/7 Protection

## Ti-DOX HydroxylizAire™ Summarized Testimonials

- Prior to the Ti-DOX *HydroxylizAire* installation, sinus congestions, sneezing attacks, runny eyes and breathing difficulties occurred daily. Subsequently, family members indicated experiencing improved indoor air and sleep quality, as well as a significant reduction of former symptoms. [Alberto F.]
- Smells don't linger in my house. [Andre B.]
- Patients come into the Health Reset Clinic and notice that the air was very fresh. [Dr. Barbara J.]
- After chopping 20 heads of Garlic late one evening to make Garlic Oil, there was no remaining smell in the morning at all. [Shawna B.]
- Our puppy had an accident on the carpet. It was cleaned up, but the 'horrible' smell lingered. The following morning – zero smell! [Laura M.]
- About 2 months after installing the *HydroxylizAire*, my husband accidentally disconnected it one day. The next day I felt sick and suffered non-stop sneezing. After plugging it back in, the symptoms had disappeared by the next morning, and it was like nothing had ever happened. [Laura M.]
- Since installing the Ti-DOX *HydroxylizAire*, my allergies have been subdued and I've been able to sleep through the night! I'm happy to say I've noticed a dramatic decrease in my sneezes per hour. [Josh P.]
- About 4 hours after the *HydroxylizAire* installation we noticed the air felt 'lighter' and a visiting neighbour had minimal allergic reactions to our cat. [Tina G.]
